Essential Reference Paper C

Consultation Responses (interim report)

There were two sources of consultation responses: standard responses and direct responses to the Council's consultation. Taking the direct responses together with the standard responses, the overall response to the consultation was in the region of 3,700 individual submissions.

The issues raised through the consultation will be considered in due course.

A) Standard Responses

A significant number of comments were received using standard response forms containing signatures and in some cases bearing additional comments.

- Watton-at-Stone: 481 responses received in relation to Chapter 10: Villages.
- **STOP Harlow North**. 2,184 responses received in relation to Chapter 12: The Gilston Area.

The full list of named respondents has been collated and may be found on the Portal under the 'Supporting Documents' tab. See <u>http://consult.eastherts.gov.uk</u>

B) Direct responses to the Council's consultation

As of 23 June 2014, 715 individual responses had been received and entered to the consultation Portal. A breakdown of the responses is shown in the tables below as follows:

- Table 1: Summary of Comments and Individual Responses by Chapter (page 2)
- Table 2: Breakdown of Comments by Submission Type (page 3)
- Table 3: Breakdown of Individual Responses by Chapter (page 4 onwards)

A further 400 emails were yet to be entered to the Portal. In total it appears that the total response will exceed 1,000 individual responses making more than 2,000 comments between them.
