

## **Eastwick and Gilston and Hunsdon Parishes Neighbourhood Area Designation**

### **Harlow Council response:**

With regard to the proposed Neighbourhood plan area designations in Eastwick and Gilston and Hunsdon Parishes, I consider that it would be premature to include locations on the edge of Harlow that could preclude the delivery of sustainable development options to meet the housing need currently being considered by our respective Council's, across the wider area. This should only be considered once agreement has been reached between the respective LPA's on the housing numbers and that the Neighbourhood Plans being used to shape the future development.
