Risk Management:	Failure to respond to the consultation would result in the Council's views not being taken into account in Heathrow Airport's emerging plans for changes to its aircraft/flight path movements in association with its expansion proposals.
Health and wellbeing – issues and impacts:	The report seeks to ensure, inter alia, that changes to Heathrow related air traffic movements should only be supported where there would be nil detriment to the ability of other South East airports (in particular, Stansted and Luton) to likewise mitigate the environmental impact of proposed increased aircraft movements on residents through improvements via their own related future Airspace change proposals. This is in order to support the health and wellbeing of the District's residents.
