Each year the council makes a return to the DCLG by way of a summary of the property valuations used to bill for council tax. This is by way of a snap shot of the position as at the second Monday in September with known adjustments to an early October.date.

The return is on a form CTB (Council Tax Base) the primary purpose of which is to assess the relative resources available to council as an input to RSG allocations. The proposals for the New Homes Bonus will use part of the data returned to calculate the year on year increase in the number of band $D$ properties.

A separate and later return will be used to calculate any increase in the number of affordable homes which will attract an enhancement.
