2020/21

B Proposed Audit Start Dates

1. Introduction and Background

Purpose of Report

- 1.1 To provide Members with the proposed East Herts Council 2020/21 Internal Audit Plan.

Background

- 1.2 The East Herts Council Internal Audit Plan sets out the programme of internal audit work for the year ahead, and forms part of the Council's wider assurance framework. It supports the requirement to produce an audit opinion on the overall internal control environment of the Council, as well as a judgement on the robustness of risk management and governance arrangements, contained in the Head of Internal Audit annual report.
- 1.3 The Shared Internal Audit Service (SIAS) Audit Charter which was presented to the July 2019 meeting of this Committee shows how the Council and SIAS work together to provide a modern and effective internal audit service. This approach complies with the requirements of the United Kingdom Public Sector Internal Audit Standards (PSIAS) which came into effect on 1 April 2013 and revised on 1 April 2017. An updated version of the SIAS Audit Charter will be brought to the first meeting of this Committee in the 2020/21 civic year.
- 1.4 The PSIAS require that the audit plan must incorporate or be linked to a strategic or high-level statement which:
 - a) Outlines how the service will be developed in accordance with the internal audit charter.
 - b) Details how the internal audit plan will be delivered.
 - c) Evidences how the service links to organisational objectives and priorities.
- 1.5 Section 2 of this report details how the SIAS complies with this requirement.

2. Audit Planning Process

Planning Principles

- 2.1 SIAS audit planning is underpinned by the following principles:
 - a) Focus of assurance effort on the Council's key issues, obligations, outcomes and objectives, critical business processes and projects

and principal risks. This approach ensures coverage of both strategic and key operational issues.

- b) Maintenance of an up-to-date awareness of the impact of the external and internal environment on the Council's control arrangements.
- c) Use of a risk assessment methodology to determine priorities for audit coverage based, as far as possible, on management's view of risk.
- d) Dialogue and consultation with key stakeholders to ensure an appropriate balance of assurance needs, including recognition that in a resource constrained environment, all needs cannot be met.
- e) Identification of responsibilities where services are delivered in partnership.
- f) In-built flexibility to ensure that new risks and issues are accommodated as they emerge.
- g) Capacity to deliver key commitments including work undertaken on behalf of External Audit, governance work and whistle blowing activity.
- h) Capacity to respond to management requests for assistance with special investigations, consultancy and other forms of advice.

Approach to Planning

- 2.2 In order to comply with the requirements of the PSIAS, SIAS has continued with a methodology for all SIAS partners which contains the following elements:

Local and National Horizon Scanning

SIAS reviews, on an ongoing basis:

- a) Key committee reports at each client and identifies emerging risks and issues.
- b) The professional and national press, as well as thought leadership for risks and issues emerging at national level.

Consideration of risk management arrangements

SIAS assesses the risk maturity of the Council and based on this assessment, determines the extent to which information contained within the Council's risk register informs the identification of potential audit areas.

Confirmation of the Council's objectives and priorities

SIAS confirms the current objectives and priorities of the Council. This information is used to confirm that identified auditable areas will provide assurance on areas directly linked to the achievement of the Council's objectives and priorities.

2.3 The approach to audit planning for 2020/21 has been characterised by:

- a) Detailed discussions with senior managers and other key officers within the Council to confirm auditable areas and elicit high level detail of the scope of audits. This process incorporates the following four steps to assist in the later prioritisation of projects:

Risk Assessment

Managers and SIAS agree the level of risk associated with an identified auditable area.

Other Sources of Assurance

Managers are asked whether assurance in the auditable area is obtained from other assurance providers e.g. External Audit or the Health and Safety Executive. This approach helps ensure that provision of assurance is not duplicated.

Significance

Managers assess how significant the auditable area is in terms of the achievement of corporate or service objectives and priorities.

Timings

Managers identify when an audit should be undertaken to add most value.

- b) Proposed plans are based on the information obtained from the planning meetings. Details of audits that have not been included in the proposed draft plan as a result of resource limitations are reported to senior management and the audit committee.
- c) The proposed 2020/21 plans for all SIAS partner councils are then scrutinised and cross-partner audits highlighted.
- d) Proposed draft plans are presented to Leadership Team for discussion and agreement.
- e) The plan is shared with the External Auditor.

This approach ensures that our work gives assurance on what is important and those areas of highest risk and thus assists the Council in achieving its objectives.

The Planning Context

- 2.4 The context within which local authorities provide their services remains challenging. Many services continue to manage increasing demand and constrained finances.
- 2.5 The resultant efficiency and transformation programme that councils are developing and implementing continue to profoundly alter each organisation's nature. Such developments are accompanied by potentially significant governance, risk management and internal control change.
- 2.6 The challenge of giving value in this context means that Internal Audit needs to:
- a) Meet its core responsibilities, which are to provide appropriate assurance to Members and senior management on the effectiveness of governance, risk management and control arrangements in delivering the achievement of Council objectives.
 - b) Identify and focus its effort on areas of significance and risk, assisting the organisation in managing change effectively, and ensuring that core controls remain effective.
 - c) Give assurance which covers the control environment in relation to new developments, using leading edge audit approaches such as use of technology to achieve 'whole population testing' and new insights over sampling or 'continuous assurance' where appropriate.
 - d) Retain flexibility in the audit plan and ensure the plan remains current and relevant as the financial year progresses.

Internal Audit Plan 2020/21

- 2.7 The draft 2020/21 internal audit plan is included at Appendix A and contains a high-level proposed outline scope for each audit. Appendix B details the planned start months. The number of days purchased has been reduced from 400 days in 2017/18, to 360 days in 2018/19, to 340 days in 2019/20 and 320 days in 2020/21. A similar reduction has been applied across some other SIAS partner Councils and was agreed by the SIAS Board. The table below shows the allocation of the total annual number of purchased audit days for the year:

	Days	%
Key Financial Systems	64	20
Operational Audits	139	43
Procurement / Contracts	20	6
Shared Learning/Joint Reviews	5	2

Counter Fraud	3	1
Risk & Governance	10	3
IT Audits	12	4
Contingency	10	3
Strategic Support*	47	15
2019/20 Projects Requiring Completion	10	3
Total audit days 2020/21	320	100

* This includes supporting the Performance, Audit and Governance Oversight Committee, monitoring, client liaison and planning for 2021/22.

- 2.8 Members will note the inclusion of a provision for the completion of projects that relate to 2019/20. The structure of Internal Audit's programme of work is such that full completion of every aspect of the work in an annual plan is not always possible, especially given the high dependence on client officers during a period where there are competing draws on their time e.g. year end closure procedures.
- 2.9 The nature of assurance work is such that enough activity must have been completed in the financial year, for the Head of Assurance to give an overall opinion on the Authority's internal control environment. In general, the tasks associated with the total completion of the plan, which includes the finalisation of all reports and negotiation of the appropriate level of agreed mitigations, is not something that adversely affects delivery of the overall opinion. The impact of any outstanding work is monitored closely during the final quarter by SIAS in conjunction with the Section 151 Officer.

3. Performance Management

Update Reporting

- 3.1 The work of Internal Audit is required to be reported to a Member Body so that East Herts Council has an opportunity to review and monitor an essential component of corporate governance and gain assurance that its internal audit provision is fulfilling its statutory obligations. It is considered good practice that progress reports also include proposed amendments to the agreed annual audit plan. Progress against the agreed plan for 2020/21 and any proposed changes will be reported to this Committee four times in the 2020/21 civic year.
- 3.2 The implementation of agreed audit recommendations will be reported to this Committee as part of the update reporting process.

Performance Indicators

- 3.3 Annual performance indicators were approved at the SIAS Board in September 2011 and are reviewed annually. Details of the targets set for 2020/21 are shown in the table below. Actual performance against target will be included in the update reports to this Committee.

Performance Indicator	Performance Target
1. Planned Days. Percentage of actual billable days against planned chargeable days completed.	95%
2. Planned Projects. Percentage of actual completed projects to draft report stage against planned completed projects. Note: to be based on the judgement of the SIAS management team and representing the best estimate as to a reasonable expectation of progress on the audit plan.	95%
3. Client Satisfaction. Percentage of client satisfaction questionnaires returned at 'satisfactory' level.	100%
4. Number of Critical and High Priority Audit Recommendations agreed.	95%
5. Annual Audit Plan.	Presented to the March meeting of each Committee. Or if there is no March meeting then presented to the first meeting of the new financial year.
6. Head of Assurance's Annual Report.	Presented to the first meeting of each Committee in the new financial year.
