Capita Asset Services undertook a review of its interest rate forecasts on 24 October. During September and October, a further rise in geopolitical concerns, principally over Ukraine but also over the Middle East, plus fears around Ebola and an accumulation of dismal growth news in most of the ten largest economies of the world and also on the growing risk of deflation in the Eurozone, had sparked a flight from equities into safe havens like gilts and depressed PWLB rates. However, there is much volatility in rates as news ebbs and flows in negative or positive ways. This latest forecast includes a first increase in Bank Rate in quarter 2 of 2015.
