

ITEM 8(B) – ENFORCEMENT UPDATE

- 1.1 The Committee requested an update report in relation to the matters currently under consideration by the Planning Enforcement team, where the Committee had given authorisation for formal enforcement action to be pursued.
- 1.2 There are a large number of cases which are being progressed by the team. Providing detailed update of all these would be unmanageable in a single report. However, Officers considered that a report on matters authorised since January 2014 would be helpful to Members. It would be possible to provide a similar update report on a quarterly or six monthly basis if Members found that useful.
- 1.3 The following Essential Reference Papers show the current situation in respect of all the enforcement matters authorised by the Committee since January 2014. Any update required in relation to matters authorised prior to that can of course be provided by the team on request by a Member.
- 1.4 Also included are details of the number of enforcement cases reported to the team in each calendar month for 2013, 2014 and so far for 2015. That Paper also includes a table showing the Team's performance in respect of achieving a first site visit in accordance with the 15 working day target set out in the Councils Enforcement Policy.
