

COUNCIL – 29 JULY 2015

MEMBERS' QUESTIONS

Question 1

Councillor R Henson to ask the Executive Member for Environment and the Public Space:

Fuel Poverty affects many of my residents in Hertford Sele, and across East Herts 7.5% of households are judged to be fuel poor – meaning that the residents of those households, who are usually on low incomes, cannot keep their homes heated at a reasonable cost. What measures is the Council taking to combat Fuel Poverty, and will the Council commit to investing in tackling Fuel Poverty through the provision of grants and loans to insulate poorer homes for the long term across the District, the better to help some of our most vulnerable residents?
