1 Background

- 1.1 Treasury management is defined as: 'The management of the Council's investments and cash flows, its banking arrangements, money market and capital transactions; the effective control of the risks associated with these activities; and the pursuit of optimum returns consistent with the Council's risk management policy for treasury management.'
- 1.1 The CIPFA (Chartered Institute of Public Finance and Accountancy) Code of Practice for Treasury Management (the Code) recommends that Members be updated on treasury management activities regularly through the Treasury Management Strategy Statement (TMSS), Annual Investment Strategy (AIS) and mid and year end reports. This report, therefore, ensures this Council is implementing best practice in accordance with the Code.
- 1.2 The Council is required by the CIPFA Treasury Management Code of Practice to approve a Treasury Management Strategy and Annual Investment Strategy each year. The purpose of the Strategy is to ensure that there is adequate cash flow to fund the Council's revenue and capital aspirations in both short and longer term.
- 1.3 The Strategy sets out a risk management policy for the investment of surplus cash. The Strategy is designed to obtain the highest possible yield, contingent upon investments being secure, and there being sufficient liquidity to meet the Council's daily cash needs.
- 1.4 The Council is required by the CIPFA Prudential Code to approve each year a set of Prudential Indicators. The Indicators must be approved by Full Council before the beginning of each financial year. Their purpose is to help the Council ensure that its capital investment plans are affordable, prudent and sustainable.
