

Essential Reference Paper B

Issue	Representations made	Officer comment
General comment.	The Parish Council note that they <i>have reviewed and considered these proposals and are in agreement with the review as outlined in the draft document.</i>	Noted and appreciated. It is worth noting there were earlier issues with which the PC and others queried that discussion and negotiations resolved.
Removing Wilstone from the conservation area.	The Chairman of the PC in correspondence that preceded their final representation referred to concern expressed by residents of Wilstone.	In the event the PC did not pursue neither did any residents of Wilstone despite the fact that several of them attended the public meeting.
Suggested alteration to the conservation area boundary.	This representation by the owner (and Chairman of the PC) related to his property at The Berries.	Agreed. The suggestion is very minor and shown on accompanying plans. The new boundary follows a boundary hedge and is now better related to features on the ground.
Inaccurate description of a listed building.	The representation advises the Village Pump and Canopy is supported by five posts not six.	Agreed. Suitable amendment to text made. In due course advise Historic England.
Request to include another listed building in the text.	The representation expressed surprise that reference to Church House had not been included.	Agreed. The text makes it clear that only a selection of listed buildings is mentioned. However the inclusion of a brief description and illustration of Church House is considered appropriate.
