

East Hertfordshire District Council

Audit planning report

Year ending 31 March 2021

30 June 2021

30 June 2021

Audit and Governance Committee
East Hertfordshire District Council

Dear Committee Members

East Hertfordshire District Council, 2020/21 Audit planning report

We are pleased to attach our audit planning report for the forthcoming meeting of the Audit and Governance Committee. The purpose of this report is to provide the with a basis to review our proposed audit approach and scope for the 2020/21 audit, in accordance with the requirements of the Local Audit and Accountability Act 2014, the National Audit Office's new 2020 Code of Audit Practice, the auditing standards and other professional requirements. It also aims to ensure that our audit is aligned with the Committee's service expectations.

This report summarises our initial assessment of the key issues which drive the development of an effective audit for the East Hertfordshire District Council, and outlines our planned audit strategy in response to those risks.

This report is intended solely for the information and use of the Audit and Governance Committee and management, and is not intended to be and should not be used by anyone other than these specified parties.

We welcome the opportunity to discuss this report with you on 29 July 2021 as well as understand whether there are other matters which you consider may influence our audit.

Yours faithfully

Suresh Patel
Associate Partner
For and on behalf of Ernst & Young

Contents

Public Sector Audit Appointments Ltd (PSAA) issued the "Statement of responsibilities of auditors and audited bodies". It is available from the PSAA website (<https://www.psaa.co.uk/audit-quality/statement-of-responsibilities/>). The Statement of responsibilities serves as the formal terms of engagement between appointed auditors and audited bodies. It summarises where the different responsibilities of auditors and audited bodies begin and end, and what is to be expected of the audited body in certain areas. The "Terms of Appointment and further guidance (updated April 2018)" issued by the PSAA sets out additional requirements that auditors must comply with, over and above those set out in the National Audit Office Code of Audit Practice (the Code) and in legislation, and covers matters of practice and procedure which are of a recurring nature. This report is made solely to the Audit and Governance Committee and management of the East Hertfordshire District Council in accordance with the statement of responsibilities. Our work has been undertaken so that we might state to the Audit and Governance Committee, and management of East Hertfordshire District Council those matters we are required to state to them in this report and for no other purpose. To the fullest extent permitted by law we do not accept or assume responsibility to anyone other than the Audit and Governance Committee, and management of East Hertfordshire District Council for this report or for the opinions we have formed. It should not be provided to any third-party without our prior written consent.

01

Overview of our 2020/21 audit strategy

Overview of our 2020/21 audit strategy

The following 'dashboard' summarises the significant accounting and auditing matters we outline in this report. It provides the Committee with an overview of our initial risk identification for the upcoming audit and any changes in risks identified in the current year

Audit risks and areas of focus

Risk / area of focus	Risk identified	Change from PY	Details
Misstatements due to fraud or error	Fraud risk	No change in risk or focus	As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.
Misstatements due to fraud or error - the incorrect capitalisation of revenue expenditure	Fraud risk	No change in risk or focus	Linking to our fraud risk identified above, we have determined that the way in which management could override controls is through the inappropriate capitalisation of revenue expenditure to understate revenue expenditure reported in the financial statements. The Council is under pressure to achieve its budget and maintain reserve balances above the minimum approved levels. One area management may override controls to help meet these challenges is how and what it accounts for expenditure. We consider this risk applies to capitalisation of revenue expenditure. Management may understate revenue expenditure by incorrectly capitalising expenditure which is revenue in nature and should be charged to the comprehensive income and expenditure account.
Minimum Revenue Provision	Fraud risk	New fraud risk	Linked to the risk of 'misstatements due to fraud and error', we consider specific areas where management makes significant judgements that impact charges to the General Fund balance. Local authorities are required to charge Minimum Revenue Provision to the General Fund in each financial year if borrowing. The calculation of this charge is based on the Capital Financing Requirement. Local authorities have flexibility in how they calculate MRP, but need to ensure the calculation is 'prudent'. In calculating a prudent provision, local authorities are required to have regard to statutory guidance. The Authority updated its MRP policy with effect from 1st April 2021. There is a risk that the Council has not been prudent in its MRP calculation and/or it has not followed the relevant statutory guidance.
Risk of fraud in revenue recognition - sales, fees and charges income grant	Fraud risk	New fraud risk	As one of the responses to the Covid-19 pandemic and its impact on Local Authority finances, the Government introduced a reimbursement scheme for lost fees and charges income. After an initial 5% reduction for annual variability, local authorities are funded for 75% of their claimed losses. There is both incentive and opportunity for local authorities to inflate the returns to Central Government, and claim for funds that they are not entitled to under the scheme. There is also the potential for error.

Overview of our 2020/21 audit strategy

Audit risks and areas of focus

Risk / area of focus	Risk identified	Change from PY	Details
New central government grants and other Covid-19 funding streams	Significant risk	New area of focus	The Authority received a series of grants from the UK government during 202/21 in support for the pandemic crisis management. We identified the accounting treatment of those grants as an area of focus due to factors discussed in Section 02.
Valuation of Property, Plant and Equipment (PPE) and investment properties	Inherent risk	Reduction in risk and change in focus	In the prior year, this was a significant audit risk because of the impact of Covid-19 on the valuations. This year we have determined it as an inherent risk due to its materiality and use of an expert to derive the accounting estimate. As the Council's asset base is significant, and the outputs from the internal valuer are subject to estimation, there is a higher inherent risk PPE may be under/overstated or the associated accounting entries incorrectly posted. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of experts and assumptions underlying fair value estimates.
Going concern disclosure	Inherent Risk	No change in risk or focus.	The financial landscape for the Council remains challenging and it will need to undertake a going concern assessment covering a period up to 12 months from the expected date of final authorisation. It will also need to make an appropriate disclosure in the financial statements. In addition, the revised auditing standard on going concern requires additional challenge from auditors on the assertions being made by management.
Pension liability valuation	Inherent risk	No change in risk or focus	The pension fund deficit is a material estimate that is disclosed on the balance sheet. It involves significant estimation and judgement which management engages an actuary to undertake.
Business Rates Appeals Provision	Inherent Risk	No change in risk or focus	The business rates appeals provision includes, not only claims up to 31 March 2021, but claims that relate to earlier periods and is subject to estimation. As appeals are made to the Valuation Office, the Council may not be aware of the level of claims lodged. The Council may also find it difficult to obtain sufficient information to establish a reliable estimate. Due to the level of estimation, size of the balance and the complexity of this provision we consider this to be a higher inherent risk.
Group Accounting	Inherent risk	No change in risk or focus	The Council prepares group accounts due to the consolidation of the Millstream Property Investments Limited financial statements with the single entity Council financial statements. We identify this as an inherent risk as this can be a complex area of accounting.

Overview of our 2020/21 audit strategy

Audit risks and areas of focus

Auditing accounting estimates

In addition to the above risks and areas of focus, a revised auditing standard has been issued in respect of the audit of accounting estimates. The revised standard requires auditors to consider inherent risks associated with the production of accounting estimates. These could relate, for example, to the complexity of the method applied, subjectivity in the choice of data or assumptions or a high degree of estimation uncertainty. As part of this, auditors now consider risk on a spectrum (from low to high inherent risk) rather than a simplified classification of whether there is a significant risk or not. At the same time, we may see the number of significant risks we report in respect of accounting estimates to increase as a result of the revised guidance in this area. The changes to the standard may affect the nature and extent of information that we may request and will likely increase the level of audit work required.

Overview of our 2020/21 audit strategy

Materiality

Planning
materiality

£1.48m

We have set materiality at £1.48 million for the financial statements which represents 2% of the prior years gross revenue expenditure of the Council. The use of 2% of gross revenue expenditure is in line with the prior year and is our maximum threshold for local authorities reflecting the higher profile of local government financial resilience and financial reporting.

Performance
materiality

£1.11m

We have set performance materiality at £0.966 million for the financial statements. This represents 75% of materiality reflecting the lower level of errors we detected in the 2019/20 financial statements.

Audit
differences

£74k

We will report all uncorrected misstatements relating to the group financial statements over £74,000. We will communicate other misstatements identified to the extent that they merit the attention of the Audit and Governance Committee.

Audit scope

This Outline Audit Plan covers the work that we plan to perform to provide you with our audit opinion on the Council and Group financial statements for 2020/21. We are also required to report a commentary on your arrangements to secure value for money in your use of resources for the relevant period. We include further details on VFM in Section 03, highlighting the changes included in the NAO's Code of Audit Practice 2020.

We will also review and report to the NAO, to the extent and in the form required by them, on the Whole of Government Accounts submission. We intend to take a substantive audit approach. When planning the audit we take into account key inputs:

- Strategic, operational and financial risks relevant to the financial statements;
- Developments in financial reporting and auditing standards;
- The quality of systems and processes; Changes in the business and regulatory environment; and,
- Management's views on all of the above.

By considering these inputs, our audit is focused on the areas that matter and our feedback is more likely to be relevant to the Council. Taking the above into account, and as articulated in this Outline Audit Plan, our professional responsibilities require us to independently assess the risks associated with providing an audit opinion and undertake appropriate procedures in response. The fees we have included in Section 09 reflect the work we need to undertake to address the risks we have currently identified. We will continuously review and update as necessary our understanding of your risks and discuss with management and the Audit and Governance Committee any significant changes.

Overview of our 2021 audit strategy

Value for money conclusion

One of the main changes in the NAO's 2020 Code is in relation to the value for money conclusion. We include details in Section 03 but in summary:

- ▶ We are still required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources.
- ▶ Planning on VFM and the associated risk assessment is now focused on gathering sufficient evidence to enable us to document our evaluation of the Council's arrangements, to enable us to draft a commentary under three reporting criteria (see below). This includes identifying and reporting on any significant weaknesses in those arrangements and making appropriate recommendations.
- ▶ We will be required to provide a commentary on the Council's arrangements against three reporting criteria:
 - Financial sustainability - How the Council plans and manages its resources to ensure it can continue to deliver its services;
 - Governance - How the Council ensures that it makes informed decisions and properly manages its risks; and
 - Improving economy, efficiency and effectiveness - How the Council uses information about its costs and performance to improve the way it manages and delivers its services.
- ▶ Within the audit opinion we will still only report by exception where we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources.
- ▶ The commentary on arrangements will be included in a new Auditor's Annual Report which we will be required to issue within 3 months of issuing the audit opinion on the statement of accounts.

Timeline

MHCLG have set the date for the Council to publish its draft accounts as by 1 August 2021 and the target date for the Council to publish its approved and audited accounts by 30 September. However, in line with our response to MHCLG's consultation we remain of the view that the end of September is an unrealistic target date and are scheduling the audit of East Hertfordshire for after the end of September.

In Section 07 we therefore include a provisional timeline for the audit.

Fees

We remain in discussion with PSAA about our proposed increase to the scale fee which we consider to be appropriate to deliver a Code compliant audit. We include in Section 09, our current view of the fees required to carry out the 2020/21 audit. We will update the Committee on any determinations by PSAA on fees.

02

Audit risks

Audit risks

Our response to significant risks

We have set out the significant risks (including fraud risks denoted by*) identified for the current year audit along with the rationale and expected audit approach. The risks identified below may change to reflect any significant findings or subsequent issues we identify during the audit.

Misstatements due to fraud or error *

What is the risk?

The financial statements as a whole are not free of material misstatements whether caused by fraud or error.

As identified in ISA (UK and Ireland) 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.

We identify and respond to this fraud risk on every audit engagement.

What will we do?

- ▶ Inquire of management about risks of fraud and the controls put in place to address those risks.
 - ▶ Understand the oversight given by those charged with governance of management's processes over fraud.
 - ▶ Consider of the effectiveness of management's controls designed to address the risk of fraud.
- Perform mandatory procedures regardless of specifically identified fraud risks, including:
- ▶ Testing the appropriateness of journal entries recorded in the general ledger and other adjustments made in the preparation of the financial statements
 - ▶ Assessing accounting estimates for evidence of management bias, and
 - ▶ Evaluating the business rationale for significant unusual transactions.

We will utilise our data analytics capabilities to assist with our work.

Having evaluated this risk we have considered whether we need to perform other audit procedures not referred to above. We concluded that only those procedures included under 'Inappropriate capitalisation of revenue expenditure' are required.

Audit risks

Our response to significant risks

Misstatements due to fraud or error – the incorrect capitalisation of revenue expenditure*

Financial statement impact

We have assessed that the risk of misreporting revenue outturn in the financial statements is most likely to be achieved through:

- ▶ Revenue expenditure being inappropriately recognised as capital expenditure at the point it is posted to the general ledger.
- ▶ Expenditure being inappropriately transferred by journal from revenue to capital codes on the general ledger at the end of the year.

If this were to happen it would have the impact of understating revenue expenditure and overstating property, plant and equipment (PPE) additions and/or Revenue Expenditure Financed as Capital Under Statute (REFCUS) in the financial statements.

What is the risk?

Under ISA 240 there is a presumed risk that revenue may be misstated due to improper revenue recognition. In the public sector, this requirement is modified by Practice Note 10 issued by the Financial Reporting Council, which states that auditors should also consider the risk that material misstatements may occur by the manipulation of expenditure recognition.

We have identified an opportunity and incentive to capitalise expenditure under the accounting framework, to remove it from the general fund. In arriving at this conclusion we have considered the continuing pressure on the revenue budget and the financial value of its annual capital programme which is many times out materiality level.

This could then result in funding of that expenditure, that should properly be defined as revenue, through inappropriate sources such as capital receipts, capital grants, or borrowing.

What will we do?

We will:

- ▶ Test PPE additions, and REFCUS if material, to ensure that the expenditure incurred and capitalised is clearly capital in nature or appropriate to be treated as REFCUS.
- ▶ Seek to identify and understand the basis for any significant journals transferring expenditure from revenue to capital codes on the general ledger at the end of the year.

We will utilise our data analytics capabilities to assist with our work, including journal entry testing. We will assess journal entries more generally for evidence of management bias and evaluate for business rationale.

Audit risks

Our response to significant risks

Minimum Revenue Provision*

Financial statement impact

If Minimum Revenue Provision (MRP) were understated it would have the impact of overstating the General Fund balance and understating the capital adjustment account.

What is the risk?

As identified in ISA 240, management is in a unique position to perpetrate fraud because of its ability to manipulate accounting records directly or indirectly and prepare fraudulent financial statements by overriding controls that would otherwise appear to be operating effectively.

We identify and respond to this risk on every audit engagement. This risk manifests itself in areas where management makes significant judgements that impact charges to the general fund balance.

Local authorities are required to charge MRP to the General Fund in each financial year. The calculation of this charge is based on the Capital Financing Requirement. Local authorities have flexibility in how they calculate MRP, providing the calculation is 'prudent'. In calculating a prudent provision, local authorities are required to have regard to statutory guidance.

The Authority updated its MRP policy with effect from 1st April 2021. There is a risk that the Council has not been prudent in its MRP calculation and/or it has not followed the relevant statutory guidance.

As such we associate this risk with Minimum Revenue Provision.

What will we do?

We will engage a technical specialist to support the team in:

- ▶ Checking that the calculation of the Capital Financing Requirement is appropriate and consistent with other notes in the financial statements;
- ▶ Checking the appropriateness of the Council's MRP policy; and
- ▶ Checking whether MRP has been appropriately calculated in accordance with the revised statutory guidance.

Audit risks

Our response to significant risks

Risk of fraud in revenue recognition - sales, fees and charges income grant *

Financial statement impact

Inappropriate grant recognition would decrease the net expenditure from the general fund.

What is the risk?

As one of the responses to the Covid-19 pandemic and its impact on Local Authority finances, the Government introduced a reimbursement scheme for lost fees and charges income. After an initial 5% reduction for annual variability, local authorities are funded for 75% of their claimed losses.

There is both incentive and opportunity for local authorities to inflate the returns to Central Government, and claim for funds that they are not entitled to under the scheme. There is also the potential for error.

The Council received £2.3m, and therefore, there is the potential this could be materially overstated.

What will we do?

Our approach will focus on:

- ▶ Gain an understanding of the Authority's process for completing the fees and sales, fees and charges reimbursement grants returns to Central Government;
- ▶ Review a sample of claims made under the local government income compensation scheme for their overall accuracy and compliance with the requirements of the scheme; and
- ▶ Seek to understand the assurance MHCLG have over claims under the scheme. If no assurance, we will consider extending our own procedures.

Our response to significant risks

New central government grants and other Covid-19 funding streams

Financial statement impact

We have identified a risk of Government grant income misstatement that could affect the Income and Expenditure accounts. We consider the risk applies to the classification of Government grant income and could result in a misstatement of 'Cost of Services' reported in the 'Comprehensive Income and Expenditure' statement and Balance Sheet.

What is the risk?

Central Government have provided a number of new and different Covid-19 related grants to local authorities during the year. There are also funds that have been provided for the Council to disseminate to other bodies.

The Council needs to review each of these to establish how they need to be accounted for. It needs to assess whether it is acting as a principal or agent, with the accounting to follow that decision. For those where the decision is a principal, it also needs to assess whether there are any initial conditions that may also affect the recognition of the grants as revenue during 2020/21.

Whilst there is no change in the CIPFA Code or Accounting Standard (IFRS 15) in respect of accounting for government grant funding, the emergency nature of some of the grants received and in some cases the lack of clarity on any associated restrictions and conditions, means that the Council will need to apply a greater degree of assessment and judgement to determine the appropriate accounting treatment within the 2020/21 statements.

What will we do?

In order to address this risk, we will carry out a range of procedures including:

- ▶ Sample testing Government Grant income to ensure that they have been correctly classified as specific or non-specific in nature;
- ▶ Reviewing the Authority's decision for new grant or funding arrangements whether it is acting as principal or agent;
- ▶ Sample testing Government Grant income to ensure that they have been correctly classified in the financial statements based on any restrictions imposed by the funding body; and
- ▶ Checking the Authority has adequately disclosed grant income received in the year, under both principal and agent arrangements.

We have requested the finance team to provide its assessment of grant accounting before it prepares the statements so that we can provide an early view on its proposed accounting treatment.

Audit risks

Other areas of audit focus

We have identified other areas of the audit, that have not been classified as significant risks, but are still important when considering the risks of material misstatement to the financial statements and disclosures.

What is the risk/area of focus?	What will we do?
<p><u>Valuation of Property, Plant and Equipment Valuations and investment properties</u></p> <p>Property, Plant & Equipment (31 March 2020): £62.1mn Investment properties (31 March 2020): £15.4mn</p> <p>At 31 March 2020 the value of the Council's property, plant and equipment and investment properties represents the largest balance in the Council's accounts. It is subject to valuation changes, impairment reviews and depreciation charges. Management is required to make material judgemental inputs and apply estimation techniques to calculate the year-end balances recorded in the balance sheet.</p> <p>For 2020/21 the Council will continue to use its internal valuation expert to support the valuation of these assets. As this is one of the largest accounting estimates on the balance sheet and one dependent on a high degree of subjectivity we deem the valuation of property, plant and equipment to represent an inherent risk of material misstatement.</p>	<p>We will disaggregate the Council's property, plant and equipment and investment properties and adopt different testing strategies.</p> <p>For specialist assets such as leisure facilities which typically are valued on the basis of depreciated replacement cost (DRC) we will test a sample of valuations, challenging the Council on key assumptions and base data such as agreeing floor areas back to original documentation.</p> <p>For non-specialist assets such as offices, which are typically valued on an Existing Use Valuation (EUV) basis, and investment properties which are based on fair value, due to the extent of subjectivity and professional judgement that management's expert applies we will consider engaging our own expert (EYRE) to enable us to audit a sample of valuations, challenging management on key assumptions and judgements.</p>

Other areas of audit focus (continued)

What is the risk/area of focus?	What will we do?
<p>Going concern disclosure</p> <p>There is a presumption that the Council will continue as a going concern for the foreseeable future. However, the Council is required to carry out a going concern assessment that is proportionate to the risks it faces. In light of the continued impact of Covid-19 on the Council's day to day finances, its annual budget, its cashflow and its medium term financial strategy, there is a need for the Council to ensure its going concern assessment is thorough and appropriately comprehensive.</p> <p>The Council is then required to ensure that its going concern disclosure within the statement of accounts adequately reflects its going concern assessment and in particular highlights any uncertainties it has identified.</p> <p>In addition, the auditing standard in relation to going concern (ISA570) has been revised with effect for the 2020/21 accounts audit.</p>	<p>We will meet the requirements of the revised auditing standard on going concern (ISA 570) and consider the adequacy of the Council's going concern assessment and its disclosure in the accounts by:</p> <ul style="list-style-type: none"> • Challenging management's identification of events or conditions impacting going concern. • Testing management's resulting assessment of going concern by evaluating supporting evidence (including consideration of the risk of management bias). • Reviewing the Council's cashflow forecast covering the foreseeable future, to ensure that it has sufficient liquidity to continue to operate as a going concern. • Undertaking a 'stand back' review to consider all of the evidence obtained, whether corroborative or contradictory, when we draw our conclusions on going concern. • Challenging the disclosure made in the accounts in respect of going concern and any material uncertainties. <p>We will discuss the detailed implications of the revised auditing standard with finance staff shortly and seek to agree with management to receive an early draft of the Council's going concern assessment in advance of the 2020/21 year-end audit in order to provide management with feedback on the adequacy and sufficiency of the proposed disclosures in relation to going concern.</p>

Audit risks

Other areas of audit focus

What is the risk/area of focus?

Pension Liability Valuation

The Local Authority Accounting Code of Practice and IAS19 require the Council to make extensive disclosures within its financial statements regarding its membership of the Local Government Pension Scheme administered by the Council.

The Council's pension fund deficit is a material estimated balance and the Code requires that this liability be disclosed on the Council's balance sheet. At 31 March 2020 this totalled £21.6 million.

The information disclosed is based on the IAS 19 report issued to the Council by the actuary to the Pension Fund.

Accounting for this scheme involves significant estimation and judgement and therefore management engages an actuary to undertake the calculations on their behalf. ISAs (UK and Ireland) 500 and 540 require us to undertake procedures on the use of management experts and the assumptions underlying fair value estimates.

What will we do?

We will:

- ▶ Liaise with the auditors of Hertfordshire Pension Fund, to obtain assurances over the information supplied to the actuary in relation to the East Hertfordshire District Council.
- ▶ Assess the work of the pension fund actuary (Hymans Robertson) including the assumptions they have used by relying on the work of PWC - Consulting Actuaries commissioned by the National Audit Office for all Local Government sector auditors, and considering any relevant reviews by the EY actuarial team; and
- ▶ Review and test the accounting entries and disclosures made within the Council's financial statements in relation to IAS19.

We will consider outturn information available at the time we undertake our work after production of the Council's draft financial statements, for example the year-end actual valuation of pension fund assets. We will use this to inform our assessment of the accuracy of estimated information included in the financial statements and whether any adjustments are required.

Audit risks

Other areas of audit focus (continued)

What is the risk/area of focus?	What will we do?
<p><u>Business Rates Appeals Provision</u></p> <p>The business rates appeals provision includes, not only claims up to 31 March 2021, but claims that relate to earlier periods and is subject to estimation.</p> <p>As appeals are made to the Valuation Office, the Council may not be aware of the level of claims lodged. The Council may also find it difficult to obtain sufficient information to establish a reliable estimate.</p> <p>Due to the level of estimation, size of the balance and the complexity of this provision we have included it as an area of risk for this year.</p>	<p>We will consider the Council's estimation of the NNDR appeals provision by performing the following:</p> <ul style="list-style-type: none">• Reviewing the Council's methodology underpinning the provision for business rate appeals to ensure it has been calculated on a reasonable basis in line with IAS 37;• Ensuring the provision is supported by appropriate evidence and that the level of estimation uncertainty is adequately disclosed; and• Reviewing the completeness of the provision.
<p><u>Group Accounting</u></p> <p>The Council prepares group accounts due to the consolidation of the Millstream Property Investments Limited financial statements with the single entity Council financial statements. We identify this as an inherent risk as this can be a complex area of accounting.</p>	<ul style="list-style-type: none">• Review the group assessment prepared by the Council, ensuring that the accounting framework and accounting policies are aligned to the East Hertfordshire District Council group;• Scope the audit requirements for Millstream Property Investment Limited based on their significance to the group accounts. Liaising with the external auditor of Millstream Property Investment Limited and potentially issuing group instructions that detail the required audit procedures they are to undertake in order to provide us with assurance for the opinion we will issue on the group accounts;• Ensure the appropriate consolidation procedures and the Code of Practice are applied when preparing the Council group accounts; and• Review valuation of investment properties owned by Millstream Property Investments Limited.

Audit risks

Other areas of audit focus (Continued)

What is the risk/area of focus?

Auditing accounting estimates

ISA 540 (Revised) - Auditing Accounting Estimates and Related Disclosures applies to audits of all accounting estimates in financial statements for periods beginning on or after December 15, 2019.

This revised ISA responds to changes in financial reporting standards and a more complex business environment which together have increased the importance of accounting estimates to the users of financial statements and introduced new challenges for preparers and auditors.

The revised ISA requires auditors to consider inherent risks associated with the production of accounting estimates. These could relate, for example, to the complexity of the method applied, subjectivity in the choice of data or assumptions or a high degree of estimation uncertainty. As part of this, auditors consider risk on a spectrum (from low to high inherent risk) rather than a simplified classification of whether there is a significant risk or not. At the same time, we expect the number of significant risks we report in respect of accounting estimates to increase as a result of the revised guidance in this area.

The changes to the standard may affect the nature and extent of information that we may request and will likely increase the level of audit work required, particularly in cases where an accounting estimate and related disclosures are higher on the spectrum of inherent risk. For example:

- We may place more emphasis on obtaining an understanding of the nature and extent of your estimation processes and key aspects of related policies and procedures. We will need to review whether controls over these processes have been adequately designed and implemented in a greater number of cases.
- We may provide increased challenge of aspects of how you derive your accounting estimates. For example, as well as undertaking procedures to determine whether there is evidence which supports the judgments made by management, we may also consider whether there is evidence which could contradict them.
- We may make more focussed requests for evidence or carry out more targeted procedures relating to components of accounting estimates. This might include the methods or models used, assumptions and data chosen or how disclosures (for instance on the level of uncertainty in an estimate) have been made, depending on our assessment of where the inherent risk lies.
- You may wish to consider retaining experts to assist with related work. You may also consider documenting key judgements and decisions in anticipation of auditor requests, to facilitate more efficient and effective discussions with the audit team.
- We may ask for new or changed management representations compared to prior years.

03

Value for Money Risks

Value for money

The Council's responsibilities for value for money

The Council is required to maintain an effective system of internal control that supports the achievement of its policies, aims and objectives while safeguarding and securing value for money from the public funds and other resources at its disposal.

As part of the material published with its financial statements, the Council is required to bring together commentary on its governance framework and how this has operated during the period in a governance statement. In preparing its governance statement, the Council tailor's the content to reflect its own individual circumstances, consistent with the requirements of the relevant accounting and reporting framework and having regard to any guidance issued in support of that framework. This includes a requirement to provide commentary on its arrangements for securing value for money from their use of resources.

Auditor responsibilities under the new Code

Under the 2020 Code we are still required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources. However, there is no longer overall evaluation criterion which we need to conclude on. Instead the 2020 Code requires the auditor to design their work to provide them with sufficient assurance to enable them to report to the Council a commentary against specified reporting criteria (see below) on the arrangements the Council has in place to secure value for money through economic, efficient and effective use of its resources for the relevant period.

The specified reporting criteria are:

- Financial sustainability
How the Council plans and manages its resources to ensure it can continue to deliver its services;
- Governance
How the Council ensures that it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness:
How the Council uses information about its costs and performance to improve the way it manages and delivers its services.

Value for money

Planning and identifying VFM risks

The NAO's guidance notes require us to carry out a risk assessment which gathers sufficient evidence to enable us to document our evaluation of the Council's arrangements, in order to enable us to draft a commentary under the three reporting criteria. This includes identifying and reporting on any significant weaknesses in those arrangements and making appropriate recommendations. This is a change to 2015 Code guidance notes where the NAO required auditors as part of planning, to consider the risk of reaching an incorrect conclusion in relation to the overall criterion.

In considering the Council's arrangements, we are required to consider:

- The Council's governance statement
- Evidence that the Council's arrangements were in place during the reporting period;
- Evidence obtained from our work on the accounts;
- The work of inspectorates (such as OfSTED) and other bodies and
- Any other evidence source that we regard as necessary to facilitate the performance of our statutory duties.

We then consider whether there is evidence to suggest that there are significant weaknesses in arrangements. The NAO's guidance is clear that the assessment of what constitutes a significant weakness and the amount of additional audit work required to adequately respond to the risk of a significant weakness in arrangements is a matter of professional judgement. However, the NAO states that a weakness may be said to be significant if it:

- Exposes - or could reasonably be expected to expose - the Council to significant financial loss or risk;
- Leads to - or could reasonably be expected to lead to - significant impact on the quality or effectiveness of service or on the Council's reputation;
- Leads to - or could reasonably be expected to lead to - unlawful actions; or
- Identifies a failure to take action to address a previously identified significant weakness, such as failure to implement or achieve planned progress on action/improvement plans.

We should also be informed by a consideration of:

- The magnitude of the issue in relation to the size of the Council;
- Financial consequences in comparison to, for example, levels of income or expenditure, levels of reserves, or impact on budgets or cashflow forecasts;
- The impact of the weakness on the Council's reported performance;
- Whether the issue has been identified by the Council's own internal arrangements and what corrective action has been taken or planned;
- Whether any legal judgements have been made including judicial review;
- Whether there has been any intervention by a regulator or Secretary of State;
- Whether the weakness could be considered significant when assessed against the nature, visibility or sensitivity of the issue;
- The impact on delivery of services to local taxpayers; and
- The length of time the Council has had to respond to the issue.

Value for money

Responding to identified risks

Where our planning work has identified a risk of significant weakness, the NAO's guidance requires us to consider what additional evidence is needed to determine whether there is a significant weakness in arrangements and undertake additional procedures as necessary, including where appropriate, challenge of management's assumptions. We are required to report our planned procedures to the audit committee.

Reporting on VFM

In addition to the commentary on arrangements, where we are not satisfied that the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources the 2020 Code has the same requirement as the 2015 Code in that we should refer to this by exception in the audit report on the financial statements.

However, a new requirement under the 2020 Code is for us to include the commentary on arrangements in a new Auditor's Annual Report. The 2020 Code states that the commentary should be clear, readily understandable and highlight any issues we wish to draw to the Council's attention or the wider public. This should include details of any recommendations arising from the audit and follow-up of recommendations issued previously, along with our view as to whether they have been implemented satisfactorily.

Status of our 2020/21 VFM planning

We have yet to commence our detailed VFM planning. However, one area of focus will be on the arrangements that the Council has in place in relation to financial sustainability in light of the impact of Covid-19 on the Council's finances.

In February 2021 Executive committee received the Revenue Budget 2021/22. The report outlined how the Council expects the Covid-19 pandemic to have a fundamental impact on the Council's finances in the short and medium term. The Council anticipates that additional funding from Central Government will not fully compensate for the financial impacts of Covid-19 and this will therefore reduce the projected reserves available at the start of 2021/22.

We will update the next Committee meeting on the outcome of our VFM planning and our planned response to any additional identified risks of significant weaknesses in arrangements.

04

Audit materiality

Materiality

Materiality

For planning purposes, planning materiality for 2020/21 has been set at £1.48 million for the financial statements. This represents 2% of the Council's prior year gross revenue expenditure (GRE) on provision of services. We will reassess materiality throughout the audit process. We consider that gross expenditure on the provision of services is the area of biggest interest to the users of the Council's accounts.

We request that the Audit and Governance Committee confirm its understanding of, and agreement to, these materiality and reporting levels.

Key definitions

Planning materiality - the amount over which we anticipate misstatements would influence the economic decisions of a user of the financial statements.

Performance materiality - the amount we use to determine the extent of our audit procedures. We have set performance materiality at £1.11mn for the financial statements which represents 75% of planning materiality. This reflects the low level of error detected in our 2019/20 financial statements audit.

Audit difference threshold - we propose that misstatements identified below this threshold of £74,000 are deemed clearly trivial. The same threshold for misstatements is used for component reporting. We will report to you all uncorrected misstatements over this amount relating to the comprehensive income and expenditure statement, balance sheet and collection fund that have an effect on income or that relate to other comprehensive income.

Other uncorrected misstatements, such as reclassifications and misstatements in the cashflow statement and movement in reserves statement or disclosures, and corrected misstatements will be communicated to the extent that they merit the attention of the Audit and Governance Committee, or are important from a qualitative perspective.

05

Scope of our audit

Scope of our audit

Objective and scope of our audit

Under the Code of Audit Practice our principal objectives are to review and report on the Council's financial statements and, by exception, where we are not satisfied that the Council had established arrangements for securing economy, efficiency and effectiveness in its use of resources to the extent required by the relevant legislation and the requirements of the Code.

We issue an audit report that covers:

1. Financial statement audit

Our objective is to form an opinion on the financial statements under International Standards on Auditing (UK). We also perform other procedures as required by auditing, ethical and independence standards, the Code and other regulations. We outline below the procedures we will undertake during the course of our audit.

Procedures required by standards

- Addressing the risk of fraud and error;
- Significant disclosures included in the financial statements;
- Entity-wide controls;
- Reading other information contained in the financial statements and reporting whether it is inconsistent with our understanding and the financial statements; and
- Auditor independence.

Procedures required by the Code

Reviewing, and reporting on as appropriate, other information published with the financial statements, including the Annual Governance Statement; and Reviewing and reporting on the Whole of Government Accounts return, in line with the instructions issued by the NAO.

2. Arrangements for securing economy, efficiency and effectiveness (value for money)

As outlined in Section 03, we are required to consider whether the Council has put in place 'proper arrangements' to secure economy, efficiency and effectiveness on its use of resources and report a commentary on those arrangements.

Scope of our audit

Audit Process overview

Our audit involves:

- ▶ Identifying and understanding the key processes and internal controls; and
- ▶ Substantive tests of detail of transactions and amounts.

For 2020/21 we plan to follow a substantive approach to the audit as we have concluded this is the most efficient way to obtain the level of audit assurance required to conclude that the financial statements are not materially misstated.

Analytics

We will use our analytics tools to enable us to capture whole populations of your financial data, in particular journal entries. These tools:

- ▶ Help identify specific exceptions and anomalies which can then be subject to more traditional substantive audit tests; and
- ▶ Give greater likelihood of identifying errors than random sampling techniques.

We will report the findings from our process and analytics work, including any significant weaknesses or inefficiencies identified and recommendations for improvement, to management and the Audit Committee.

Internal audit

We will review internal audit plans and the results of their work. We will reflect on these when designing our overall audit approach and when developing our detailed testing strategy. We may also reflect relevant findings from their work in our reporting, where it raises issues that could have a material impact on the financial statements.

Scope of our audit

Scoping the group audit

Group scoping

Our audit strategy for performing an audit of an entity with multiple locations is risk based. We identify components as:

- 1. Significant components:** A component is significant when it is likely to include risks of material misstatement of the group financial statements, either because of its relative financial size to the group (quantitative criteria), or because of its specific nature or circumstances (qualitative criteria). We generally assign significant components a full or specific scope given their importance to the financial statements.
- 2. Not significant components:** The number of additional components and extent of procedures performed depended primarily on: evidence from significant components, the effectiveness of group wide controls and the results of analytical procedures.

For all other components we perform other procedures to confirm that there is no risk of material misstatement within those locations. These procedures are detailed below.

Scope definitions

A Full scope: locations where a full audit is performed to the materiality levels assigned by the Group audit team for purposes of the consolidated audit. Procedures performed at full scope locations support an interoffice conclusion on the reporting package. These may not be sufficient to issue a stand-alone audit opinion on the local statutory financial statements because of the materiality used and any additional procedures required to comply with local laws and regulations. No entities identified as full scope audit.

B Specific scope: locations where the audit is limited to specific accounts or disclosures identified by the Group audit team based on the size and/or risk profile of those accounts. Millstream Property Investments Limited which is consolidated within the group accounts is a specific scope audit. We will our review and testing on the specific balances which are considered to have a material impact on the group accounts or have an identified risk attached to them.

Key changes in scope from last year

- No changes in scope from prior year

Audit team

Audit team

Audit team structure:

Debbie Hanson
Associate Partner

Nazeer Mohammed
Audit Manager

Richmond Nyarko
Senior

Working together with the Council

We are working together with officers to identify continuing improvements in communication and processes for the 2020/21 audit.

We will continue to keep our audit approach under review to streamline it where possible.

EY Real
Estates (EYRE)

PwC (consulting
actuary) and EY
Actuaries

Use of specialists

When auditing key judgements, we are often required to use the input and advice provided by specialists who have qualifications and expertise not possessed by the core audit team. The areas where specialists are expected to provide input for the current year audit are:

Area	Specialists
Pensions disclosure	EY Actuaries Hymans Robertson - Actuary to the Hertfordshire Pension Fund
Property, plant and equipment	Council's valuer (internal valuer) EY Real Estates Team (if required)
Business Rates Appeals Provision	Council's specialist (Analyse Local)

In accordance with Auditing Standards, we will evaluate each specialist's professional competence and objectivity, considering their qualifications, experience and available resources, together with the independence of the individuals performing the work.

We also consider the work performed by the specialist in light of our knowledge of the Council's business and processes and our assessment of audit risk in the particular area. For example, we would typically perform the following procedures:

- ▶ Analyse source data and make inquiries as to the procedures used by the specialist to establish whether the source data is relevant and reliable;
- ▶ Assess the reasonableness of the assumptions and methods used;
- ▶ Consider the appropriateness of the timing of when the specialist carried out the work; and
- ▶ Assess whether the substance of the specialist's findings are properly reflected in the financial statements.

07

Audit timeline

Indicative Audit timeline

Indicative timetable of communication and planned deliverables

Indicative timeline

Below is an indicative timetable showing the key stages of the audit and the planned deliverables we have agreed to provide to you through the audit cycle in 2020/21. Please note that we will communicate any changes to this plan to officers and members as soon as we can. From time to time matters may arise that require immediate communication with the Audit and Governance Committee and we will discuss them with the Committee Chair as appropriate. We will also provide updates on corporate governance and regulatory matters as necessary.

Audit phase	Timetable	Audit and Governance Committee Meeting timetable	Deliverables
Initial Planning: Risk assessment and setting of scopes and walkthrough of key systems and processes	June/July 2021	Audit and Governance Committee Meeting	Audit plan
No interim testing planned			
Draft accounts received	July	Audit and Governance Committee Meeting	Updated Audit Plan (if needed)
Year end audit Audit Completion procedures	October		
	December	TBC	Audit Results Report
	December		Annual Auditor's Report including commentary on VFM

08

Independence

Introduction

The FRC Ethical Standard and ISA (UK) 260 “Communication of audit matters with those charged with governance”, requires us to communicate with you on a timely basis on all significant facts and matters that bear upon our integrity, objectivity and independence. The Ethical Standard, as revised in December 2019, requires that we communicate formally both at the planning stage and at the conclusion of the audit, as well as during the course of the audit if appropriate. The aim of these communications is to ensure full and fair disclosure by us to those charged with your governance on matters in which you have an interest.

Required communications

Planning stage	Final stage
<ul style="list-style-type: none"> ▶ The principal threats, if any, to objectivity and independence identified by Ernst & Young (EY) including consideration of all relationships between you, your affiliates and directors and us; ▶ The safeguards adopted and the reasons why they are considered to be effective, including any Engagement Quality review; ▶ The overall assessment of threats and safeguards; ▶ Information about the general policies and process within EY to maintain objectivity and independence. 	<ul style="list-style-type: none"> ▶ In order for you to assess the integrity, objectivity and independence of the firm and each covered person, we are required to provide a written disclosure of relationships (including the provision of non-audit services) that may bear on our integrity, objectivity and independence. This is required to have regard to relationships with the entity, its directors and senior management, its affiliates, and its connected parties and the threats to integrity or objectivity, including those that could compromise independence that these create. We are also required to disclose any safeguards that we have put in place and why they address such threats, together with any other information necessary to enable our objectivity and independence to be assessed; ▶ Details of non-audit/additional services provided and the fees charged in relation thereto; ▶ Written confirmation that the firm and each covered person is independent and, if applicable, that any non-EY firms used in the group audit or external experts used have confirmed their independence to us; ▶ Details of any non-audit/additional services to a UK PIE audit client where there are differences of professional opinion concerning the engagement between the Ethics Partner and Engagement Partner and where the final conclusion differs from the professional opinion of the Ethics Partner ▶ Details of any inconsistencies between FRC Ethical Standard and your policy for the supply of non-audit services by EY and any apparent breach of that policy; ▶ Details of all breaches of the IESBA Code of Ethics, the FRC Ethical Standard and professional standards, and of any safeguards applied and actions taken by EY to address any threats to independence; and ▶ An opportunity to discuss auditor independence issues.

In addition, during the course of the audit, we are required to communicate with you whenever any significant judgements are made about threats to objectivity and independence and the appropriateness of safeguards put in place, for example, when accepting an engagement to provide non-audit services.

We ensure that the total amount of fees that EY and our network firms have charged to you and your affiliates for the provision of services during the reporting period, analysed in appropriate categories, are disclosed.

Relationships, services and related threats and safeguards

We highlight the following significant facts and matters that may be reasonably considered to bear upon our objectivity and independence, including the principal threats, if any. We have adopted the safeguards noted below to mitigate these threats along with the reasons why they are considered to be effective. However we will only perform non-audit services if the service has been pre-approved in accordance with your policy.

Overall Assessment

Overall, we consider the safeguards that have been adopted appropriately mitigate the principal threats identified and we confirm that EY is independent and that Suresh Patel, your audit engagement partner, and the audit engagement team have not compromised their objectivity and independence

Self interest threats

A self interest threat arises when EY has financial or other interests in the Council. Examples include where we receive significant fees in respect of non-audit services; where we need to recover long outstanding fees; or where we enter into a business relationship with you. At the time of writing, there are no long outstanding fees. At the time of producing this plan EY advisory are responding to the Council's invitation to tender for a review of Air Quality Behavioural Insights. We do not believe there to be any perceived or actual independence matters that this engagement would create for the external audit, including consideration of the NAO's list of prohibited non-audit services. The proposed fee is also well below the NAOs fee cap for non-audit services of 70% of the scale audit fee. We will continue to keep you updated on whether this work proceeds.

We believe that it is appropriate for us to undertake permissible non-audit services and we will comply with the policies that you have approved.

None of the services are prohibited under the FRC's ES or the National Audit Office's Auditor Guidance Note 01 and the services have been approved in accordance with your policy on pre-approval. The ratio of non audit fees to audits fees is not permitted to exceed 70%.

A self interest threat may also arise if members of our audit engagement team have objectives or are rewarded in relation to sales of non-audit services to you. We confirm that no member of our audit engagement team, including those from other service lines, has objectives or is rewarded in relation to sales to you, in compliance with Ethical Standard part 4.

There are no self interest threats at the date of this report.

Self review threats

Self review threats arise when the results of a non-audit service performed by EY or others within the EY network are reflected in the amounts included or disclosed in the financial statements. There are no self review threats at the date of this report.

Management threats

Partners and employees of EY are prohibited from taking decisions on behalf of management of the Council. Management threats may also arise during the provision of a non-audit service in relation to which management is required to make judgements or decision based on that work. There are no management threats at the date of this report.

Relationships, services and related threats and safeguards

Other threats

Other threats, such as advocacy, familiarity or intimidation, may arise. There are no other threats at the date of this report.

Other communications

EY Transparency Report 2020

Ernst & Young (EY) has policies and procedures that instil professional values as part of firm culture and ensure that the highest standards of objectivity, independence and integrity are maintained. Details of the key policies and processes in place within EY for maintaining objectivity and independence can be found in our annual Transparency Report which the firm is required to publish by law. The most recent version of this Report is for the year end 30 June 2020: https://assets.ey.com/content/dam/ey-sites/ey-com/en_uk/about-us/transparency-report-2020/ey-uk-2020-transparency-report.pdf

09

Appendices

Appendix A

Fees

The duty to prescribe fees is a statutory function delegated to Public Sector Audit Appointments Ltd (PSAA) by the Secretary of State for Communities and Local Government. PSAA has published a scale fee for all relevant bodies. This is defined as the fee required by auditors to meet statutory responsibilities under the Local Audit and Accountability Act 2014 in accordance with the requirements of the Code of Audit Practice and supporting guidance published by the National Audit Office, the financial reporting requirements set out in the Code of Practice on Local Authority Accounting published by CIPFA/LASAAC, and the professional standards applicable to auditors' work.

	Planned fee 2020/21 (£)	Final fee 2019/20 (£)
Scale Fee - Code work [note 1]	40,295	40,295
Additional fees: [note 2]		
- Additional work on PPE	TBC	7,000
- VFM significant risk	4,900-7,000	4,900
- Going concern assessment & disclosure	2,000-3,000	2,800
- EY internal consultation on audit report	1,000-2,000	2,000
- Group consolidation	5,000-6,000	5,000
- Revised auditing standard for estimates	TBC	-
- MRP	TBC	-
- Accounting for grants	TBC	-
Total audit	TBC	61,995
Non-audit services:		
- Housing Benefits	TBC	21,140
Total other non-audit services	TBC	21,140
Total fees	TBC	83,135

The agreed fee presented is based on the following assumptions:

- Officers meeting the agreed timetable of deliverables;
- Our accounts opinion being unqualified;
- Appropriate quality of documentation is provided by the Council;
- The Council has an effective control environment;
- EY internal consultation on the audit report in line with 2019/20.

If any of the above assumptions prove to be unfounded, we will seek a variation to the agreed fee. This will be discussed in advance.

Fees for the auditor's consideration of correspondence from the public and formal objections will be charged in addition to the scale fee.

All fees exclude VAT

Notes:

1. We are currently in discussion with PSAA nationally about an increase to the scale fee. For East Hertfordshire we proposed an increase of £26,949. This is yet to be determined by PSAA.
2. 2019/20 additional fees agreed in principle with management. This remains subject to approval by PSAA. Ranges for 2020/21 additional fees based on prior year experience where appropriate.

Appendix B

Required communications with the Audit and Governance Committee

We have detailed the communications that we must provide to the Audit and Governance Committee.

		 Our Reporting to you
Required communications	 What is reported?	  When and where
Terms of engagement	Confirmation by the Audit and Governance Committee of acceptance of terms of engagement as written in the engagement letter signed by both parties.	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Our responsibilities	Reminder of our responsibilities as set out in the engagement letter	The statement of responsibilities serves as the formal terms of engagement between the PSAA's appointed auditors and audited bodies.
Planning and audit approach	Communication of the planned scope and timing of the audit, any limitations and the significant risks identified. When communicating key audit matters this includes the most significant risks of material misstatement (whether or not due to fraud) including those that have the greatest effect on the overall audit strategy, the allocation of resources in the audit and directing the efforts of the engagement team	Audit Plan, July 2021 meeting of the Audit and Governance Committee.
Significant findings from the audit	<ul style="list-style-type: none"> ▶ Our view about the significant qualitative aspects of accounting practices including accounting policies, accounting estimates and financial statement disclosures ▶ Significant difficulties, if any, encountered during the audit ▶ Significant matters, if any, arising from the audit that were discussed with management ▶ Written representations that we are seeking ▶ Expected modifications to the audit report ▶ Other matters if any, significant to the oversight of the financial reporting process 	Audit Results Report, December 2021 (TBC) meeting of the Audit and Governance Committee.

Appendix B

Required communications with the Audit and Governance Committee (continued)

		 Our Reporting to you
Required communications	 What is reported?	  When and where
Going concern	<p>Events or conditions identified that may cast significant doubt on the entity's ability to continue as a going concern, including:</p> <ul style="list-style-type: none"> ▶ Whether the events or conditions constitute a material uncertainty ▶ Whether the use of the going concern assumption is appropriate in the preparation and presentation of the financial statements ▶ The adequacy of related disclosures in the financial statements 	Audit Results Report, September 2021 (TBC) meeting of the Audit and Governance Committee.
Misstatements	<ul style="list-style-type: none"> ▶ Uncorrected misstatements and their effect on our audit opinion, unless prohibited by law or regulation ▶ The effect of uncorrected misstatements related to prior periods ▶ A request that any uncorrected misstatement be corrected ▶ Corrected misstatements that are significant ▶ Material misstatements corrected by management 	Audit Results Report, September 2021 (TBC) meeting of the Audit and Governance Committee.
Fraud	<ul style="list-style-type: none"> ▶ Enquiries of the Audit Committee to determine whether they have knowledge of any actual, suspected or alleged fraud affecting the entity ▶ Any fraud that we have identified or information we have obtained that indicates that a fraud may exist ▶ A discussion of any other matters related to fraud 	Audit Results Report, September 2021 (TBC) meeting of the Audit and Governance Committee.
Related parties	<p>Significant matters arising during the audit in connection with the entity's related parties including, when applicable:</p> <ul style="list-style-type: none"> ▶ Non-disclosure by management ▶ Inappropriate authorisation and approval of transactions ▶ Disagreement over disclosures ▶ Non-compliance with laws and regulations ▶ Difficulty in identifying the party that ultimately controls the entity 	Audit Results Report, September 2021 (TBC) meeting of the Audit and Governance Committee.

Appendix B

Required communications with the Audit and Governance Committee (continued)

		Our Reporting to you
Required communications	 What is reported?	 When and where
Independence	<p>Communication of all significant facts and matters that bear on EY's, and all individuals involved in the audit, objectivity and independence</p> <p>Communication of key elements of the audit engagement partner's consideration of independence and objectivity such as:</p> <ul style="list-style-type: none"> ▶ The principal threats ▶ Safeguards adopted and their effectiveness ▶ An overall assessment of threats and safeguards ▶ Information about the general policies and process within the firm to maintain objectivity and independence 	<p>Audit Plan, July 2021</p> <p>Audit results report, December 2021 (TBC)</p>
External confirmations	<ul style="list-style-type: none"> ▶ Management's refusal for us to request confirmations ▶ Inability to obtain relevant and reliable audit evidence from other procedures 	<p>Audit Results Report, December 2021 (TBC) meeting of the Audit and Governance Committee.</p>
Consideration of laws and regulations	<ul style="list-style-type: none"> ▶ Audit findings regarding non-compliance where the non-compliance is material and believed to be intentional. This communication is subject to compliance with legislation on tipping off ▶ Enquiry of the Audit Committee into possible instances of non-compliance with laws and regulations that may have a material effect on the financial statements and that the Committee may be aware of 	
Internal controls	<ul style="list-style-type: none"> ▶ Significant deficiencies in internal controls identified during the audit 	
Representations	<ul style="list-style-type: none"> ▶ Written representations we are requesting from management and/or those charged with governance 	Assurance Letter to be received shortly after year-end.
Material inconsistencies and misstatements	<ul style="list-style-type: none"> ▶ Material inconsistencies or misstatements of fact identified in other information which management has refused to revise 	<p>Audit Results Report, December 2021 (TBC) meeting of the Audit and Governance Committee.</p>
Auditors report	<ul style="list-style-type: none"> ▶ Key audit matters that we will include in our auditor's report ▶ Any circumstances identified that affect the form and content of our auditor's report 	

Appendix B

Required communications with the Audit and Governance Committee (continued)

Our Reporting to you		
Required communications	 What is reported?	 When and where
Group Audits	<ul style="list-style-type: none"> ▶ An overview of the type of work to be performed on the financial information of the components ▶ An overview of the nature of the group audit team's planned involvement in the work to be performed by the component auditors on the financial information of significant components ▶ Instances where the group audit team's evaluation of the work of a component auditor gave rise to a concern about the quality of that auditor's work ▶ Any limitations on the group audit, for example, where the group engagement team's access to information may have been restricted ▶ Fraud or suspected fraud involving group management, component management, employees who have significant roles in group-wide controls or others where the fraud resulted in a material misstatement of the group financial statements. 	Audit Plan, July 2021 Audit results report, December 2021 (TBC)

Additional audit information

Other required procedures during the course of the audit

In addition to the key areas of audit focus outlined in section 2, we have to perform other procedures as required by auditing, ethical and independence standards and other regulations. We outline the procedures below that we will undertake during the course of our audit.

Our responsibilities required by auditing standards

- ▶ Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- ▶ Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control.
- ▶ Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- ▶ Concluding on the appropriateness of management's use of the going concern basis of accounting.
- ▶ Evaluating the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtaining sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Council to express an opinion on the consolidated financial statements. Reading other information contained in the financial statements, including the board's statement that the annual report is fair, balanced and understandable, the Audit Committee reporting appropriately addresses matters communicated by us to the Committee and reporting whether it is materially inconsistent with our understanding and the financial statements; and Maintaining auditor independence.

Purpose and evaluation of materiality

For the purposes of determining whether the accounts are free from material error, we define materiality as the magnitude of an omission or misstatement that, individually or in the aggregate, in light of the surrounding circumstances, could reasonably be expected to influence the economic decisions of the users of the financial statements. Our evaluation of it requires professional judgement and necessarily takes into account qualitative as well as quantitative considerations implicit in the definition. We would be happy to discuss with you your expectations regarding our detection of misstatements in the financial statements.

Materiality determines the locations at which we conduct audit procedures to support the opinion given on the financial statements; and the level of work performed on individual account balances and financial statement disclosures.

The amount we consider material at the end of the audit may differ from our initial determination. At this stage, however, it is not feasible to anticipate all of the circumstances that may ultimately influence our judgement about materiality. At the end of the audit we will form our final opinion by reference to all matters that could be significant to users of the accounts, including the total effect of the audit misstatements we identify, and our evaluation of materiality at that date.
