### **Update on current position**

- The lockdown has caused a loss of income of approximately £800,000 per month. The third national lockdown was reviewed in mid-February and with the new variants of the virus and the vaccination programme underway the base planning assumption that some form of restriction will remain in place until June at the earliest was confirmed. Once restrictions are eased we expect a cautious and gradual lifting with close examination of data so it is likely to take some time for people to return to their previous patterns of behaviour.
- Total Government support of just over £2.9 million has been received to date for Council services. A further £63.6 million has been received by the Council and paid out to support business and the community in East Herts.
- Council's £2.9 million funding compensates for loss of transactional income but not items such as rent on investment properties. It also contains one off funding for new burdens administering grants for business and residents but is significantly less than the actual cost of administering these schemes.
- Rent payments on investment properties have no significant defaults to date. Rent reductions have been agreed for 2 tenants in Charringtons but this has to set against compensation that would have been payable when we need to move tenants out for handover for the Old River Lane regeneration as we have included appropriate break clauses

### **Update on current position**

- as part of the new rent agreement.
- Government has committed to the income compensation scheme for the first quarter of 2021/2 and it is possible that they would extend the scheme to cover periods of restrictions beyond quarter 1.
- Once the pandemic has ended and the economy has started to recover, the Government will have to determine how it will manage public finances going forward. It is likely that a new phase of austerity may well follow and central funding for district councils is likely to be limited or reduced. The government may well change the local taxation system by abolishing Business Rates and Council Tax and replacing it with some other form of property related or land value taxation. The Government may also decide to impose reorganisation on local government to reduce the number of Councils significantly.
- Leadership Team and Service Managers have looked at agile working proposals and validated the likely maximum number of desks required going forward. Indicative figures at this stage indicate that Wallfields is too large for our requirements and officers are now exploring options around sharing space with tenants or whether relocation elsewhere would produce greater savings.
- Transformation Programme vision, benefits realisation classifications, work streams and new digital by default customer journey ethos due for Executive approval in July with staff briefings in August. Regular update reports to Executive on progress.
- Savings plans for 2021/22 is on target with garden waste sign up being on budget assumption with a high on-line sign up of 92.5% and direct debit payments at 82%
- Corporate policy on charging to be developed to ensure consistency across charges there have been a number of below cost charges agreed with no clear policy or justification in the past that are having to be dealt with as part of aligning charges with North Herts for joint commercial waste services.
- Grange Paddocks and Northgate End construction work is underway.
- Hartham contract awarded and within budget in February with works commenced late March.
- Old River Lane /Arts Centre change in scope progressing and approved by Council in March alongside the business plan. Development Agreement and Development Management Agreement draft approaching completion in April with s.151 officer and monitoring officer input.
- Hertford Theatre due to commence later in 2021.

### **Update on current position**

- All major capital projects are at risk of potential prices increases as a result of the combined impact of COVID / BREXIT related inflationary pressures. The materials market has seen a 25% increase in both steel and timber prices in the last quarter as well as increases in concrete and other materials. In addition to the increasing cost of materials, there is a significant shortage of labour supply for the construction and M&E industries, which is in turn pushing up the price of labour. This is a national issue.
- The national shortage of HGV drivers is driving up pay and this will lead to pressures on the cost of the waste contract.

No	Score	Vulnerability	Trigger	Consequence	Risk owner	Mitigation / control

### **Update on current position**

- Rydon's report that there is a national shortage of bricklayers which may affect Northgate End redevelopment timescales although they are confident they can resolve the issue. This situation seems counter intuitive since ONS issued statistics showing 64% of bricklayers were furloughed and their wages fell by 8%. Officers shall continue to monitor the situation and seek to understand the situation but as bricklayers are considered a high vulnerability job, as it cannot be done remotely and therefore has a high risk of infection, there is perhaps a reluctance to come off furlough until they have been vaccinated.
- As at 12 December 7,200 individuals with an East Herts address had applied for Settled Status. This indicates a strong appetite for EU citizens to remain in the district.
- Officers are considering the lessons from how the Council has been able to operate during the pandemic. It is evident that working from home is possible on a greater scale and this will have implications for our future accommodation needs and reduce travel leading to lower carbon emissions
- Council is actively targeting food waste reduction. The Climate Change Committee say that for the UK's next carbon budget food waste must be reduced by 75% i.e. the vast majority of carbon emissions are from the production and transportation of food that is wasted. The UN report on food waste said that almost a billion tons of food was wasted and led to carbon emissions that if it were a country, would be third behind the USA and China
- 2 stage approach to mitigating recession following COVID-19: In the first lockdown the council supported over 2,200 businesses with £30m of government funded grants and £18m of reliefs. A further £6.8m has been paid out since November through different government grant schemes and a further 600 businesses have benefitted on top of the 2,200 above.
- £132,000 of ERDF funding has been allocated to support safe re-opening of High Streets and has covered work such as traffic management on high streets to encourage social distancing. Due to the second national lockdown retail businesses are again facing significant challenges and our most recent response has been to introduce a shop local campaign focused on on-line buying and takeaways / click and collect services. The funding was also used to purchase hand sanitisers in town centres and planters to replace temporary traffic barriers.
- Council also commissioned a new service with Broxbourne Borough Council and the CVS to support newly unemployed residents get back into work by supporting them with digital skills such as interviewing over Zoom and

### **Update on current position**

MS Teams. Service launched 5th October 2020. As at 31 March 2021, 41 individuals had made use of the scheme.

No	Score	Vulnerability	Trigger	Consequence	Risk owner	Mitigation / control

The     investment requirements     are tried and tested systems     that have resulted in savings     elsewhere.

### **Update on current position**

- January's report showed that:
  - o 3,298 spam emails were blocked out of 248,920 received.
  - 19 impersonation attempts were blocked.
  - o 20 emails containing malware were blocked.
- A dedicated GDPR/Data Protection Officer has been recruited and has taken up the post.
- Recent weekend shutdowns have enabled the disabling of old technology that was no longer supported or updated.
   New firewalls and switches have been installed and although slightly behind due to resourcing issues, all major projects are progressing well.
- A small agile working group has been established and is currently working to develop a trial partial reopening of the Wallfields office in April. We are working towards the Government dates and will review in line with any guidance or changes that emerge. The office has been assessed to ensure it is meeting current COVID guidance.
- As the ICT upgrade projects progress there have been several incidents that have resulted in the loss of IT for staff and members. A day and a half of productivity was lost in June. The issue was identified and rectified but this has further exposed how our aging infrastructure is starting to impact on the organisation.
- SBC (IT Shared partner) are developing a scope to be agreed by both parties for a review to be undertaken at the request of the respective council leaders, to provide assurance going forward. In addition additional resourcing is being investigated to see if the replacement programme can be accelerated.
- This has not resulted in the councils experiencing any data security and cyber risks.
- A new interim ICT Partnership Manager came into post during August and is making changes in project delivery arrangements and major incident protocols.

### **Update on current position**

- Staff turnover had reduced for the 19/20 (1/4/19-31/3/2020) period to 10.1% from 19% (18/19) meaning that the regrading and pay proposals appear to have aided attraction and retention as planned. Turnover has continued to remain low which is common in the current pandemic and for 20/21 it has reduced further to 8.4% for global turnover with 6.3% for voluntary turnover (there were 28 leavers, but 7 leavers left due to redundancy/FTC expiring).
- The number of leavers in Q4 did increase and it remains challenging to recruit senior planning officers especially as agency terms are move favourable than direct salaries, the service is being restructured in 21-22 to try to improve the structure and create more opportunities for growth and retention (Golden Hellos are already used where appropriate as is 100% funding for qualifications. The area remains a priority for grow your own through apprentice and career graded posts and these are used but currently there is not a valid apprentice framework to utilise. In line with savings required all recruitment must be approved by Leadership Team with enhanced justification and a requirement to explore either restructures or process changes to eliminate the need for the post.
- The temporary labour supply arrangement went live in April 2020 which has reduced fees paid to agencies and ensures a wider pool of potential candidates. This is working fairly well with issues resolved with Matrix where they arise to improve the pooling.
- The Indeed EHC branded website is working ok but has not been as successful as hoped. An improved online application form managed through an Applicant Tracking System (ATS) will be introduced in 21-22 to make the candidate journey easier and hopefully reduce the drop off caused by moving between systems.
- Ongoing work has continued with the Communications team and HR to improve the online presence and promote the employer brand further. Case studies are being developed to support welcoming diversity.
- Career graded posts are continuing to be used and proving successful for hard to recruit posts with all four Lawyer

### **Update on current position**

- roles successfully filled. All four have started in post which is already really improving the legal capacity of EHC.
- A review of apprentices is continuing to both manage costs and support succession. This has been slowed by the pandemic, but we now recruiting into customer services as this allows progression into a range of services. We are awaiting a new planner framework and will use this to bring further planning apprentices.
- The Wellbeing survey was re-run alongside a full staff survey in December 2020 and the staff satisfaction rates received are high which is positive with 95% of respondents proud to work for EHC and 94.7% would recommend EHC to others as a good place to work.
- Once completed, Northgate End, Hertford Theatre and Old River Lane sites will all require IT and Facilities Management support over extended operating hours.

No	Score	Vulnerability	Trigger	Consequence	Risk owner	Mitigation / control
5	C 4	Poor performance or failure of key partner or contractor	Poor performance or failure of key partner or contractor	<ul> <li>Disruption to all Council services</li> <li>Additional costs resulting from response</li> <li>Demand to partner organisations to provide mutual aid to support our response</li> <li>Cost and time involved in unplanned procurement exercises</li> <li>Major media engagement</li> <li>Reputational damage</li> </ul>	Head of Operations	<ul> <li>Risk of contractor failure increased due to COVID. 			Failure to mobilise major outsourced contracts properly and/or on time	<ul> <li>Disruption to council services</li> <li>Damage to relations with outsourcing partner and potential damages claim</li> <li>Major media engagement</li> <li>Reputational damage</li> </ul>		paid to trade news concerning contractors' financial health.  Offer of open book accounting to examine any potential cost increases as a result of changing circumstances.  Waste-related business continuity plans are also regularly reviewed. Brexit restrictions and the closure of Asian export markets will impact on the sale of materials and income may cease and costs may increase. Talks are ongoing with other Hertfordshire authorities to determine alternative recycling operators. The council is investigating a circular economy option for the plastics waste stream in particular.

### **Update on current position**

- Risk of business failure has increased due to COVID. Business continuity plans refreshed and regular dialogue maintained with contractors who have been informed the council would look sympathetically at cost increases provided the council was told in advance and the contactor undertook to use reasonable endeavours to resolve cost pressures themselves utilising furlough and other central government support.
- Successful bid to the National Leisure Recovery Fund in partnership with SLM to support costs whilst reopening with reduced activities and reduced class sizes to maintain social distancing.
- Contingency plans to step in should contractors fail. Principal route will be to use a TEKAL company to provide the service pending retendering as the company vehicle preserves the private sector T&Cs of employment.
- Council has and is prepared to offer loans to help contractors with cash flow, subject to an assessment that they are
  a going concern
- Requirement for higher recycled packaging content has caused some plastic materials prices to increase.

### Update on current position

- Four new solicitors starting with the Council following a successful recruitment process. First solicitor started in January and the final one joined in April. The Contracts Lawyer, who started in March 2021, will allow for much greater control over the Council's major project work and has already begun attending meeting of this nature.
- Successfully recruited an Information Governance and Data Protection Manager who started at the beginning of 2021, providing the Council with greater resilience against data breaches. Making good progress in addressing any deficiencies or weakness in the Council's approach to data protection and information management.
- There has been a reduction in the amount of work being outsourced meaning that, where legal advice is required, East Herts Legal Team are consulted throughout. This should reduce the risk of problems arising further down the line.

No	Score	Vulnerability	Trigger		Consequence	Risk owner		Mitigation / control
7	A 1	District Plan	Failure to refresh District Plan to timescales and /or refreshed District Plan found to be unsound at examination	•	Planning becomes developer led rather than planning policy led through 5 year land supply test Additional costs to redo work Additional costs of planning appeals and possible judicial reviews Reputational damage Loss of affordable housing andS.106 / community infrastructure levy benefits Failure to meet 5 year Housing Land Supply requirements Possible intervention by MHCLG	Head of Planning	•	Evidence based planning policy decisions Strong focus on Member, Parish, partner and community buy-in

### **Update on current position**

- The District Plan was adopted in October 2018 following a successful examination in public.
- Planning in East Herts is therefore 'plan-led' rather than 'developer-led'.

### **Update on current position**

- The majority of strategic sites now have an agreed Masterplan.
- Following the Housing Delivery Test results in January, the Council has maintained the minimum 5% buffer and therefore can demonstrate a five year land supply in excess of 6 years.
- The Council has also continued its trend of annual improvements on the Housing Delivery Test, this year being able to demonstrate a 104% delivery rate meaning that the Council is meeting its housing need and addressing the undersupply of previous years as well.
- A total of 994 dwellings were completed in 2020/21. Of these, 326 were affordable homes which represents 32.8% of all completed dwellings in the district.
- To be effective plans need to be kept up-to-date. The National Planning Policy Framework states policies in local plans, should be reviewed to assess whether they need updating at least once every 5 years, and should then be updated as necessary. Officers are currently considering whether a review of the District Plan is required.

				<ul> <li>Reputational damage</li> <li>Increased costs as a result of loss or fine or compensation payments</li> </ul>		<ul> <li>Electronic workflow where controls much harder to circumvent</li> <li>Separation of duties appropriate to the staffing numbers</li> </ul>

	Update on current position
11	Audits remain mostly on track and there is sufficient audit scope for an assurance opinion to be given
	Assurance Mapping approach to be introduced which will show visually where assurance is gained and also identifies.
	duplications and unnecessary steps which will inform officers undertaking lean process reviews and help Audit &
	Governance Committee to see where there are risks and then internal audit resources can be directed there.
