

East Herts Council Non-Key Decision Report

Date: 30 September 2021

Report by: Jan Goodeve – Executive Member for
Planning and Growth

Report title: Bishop’s Stortford’s Neighbourhood Plan for
Silverleys and Meads Wards 1st Revision
2020-2032. Draft Pre-Submission SEA
Screening Report

Ward(s) affected: Silverleys and Meads Wards

Summary

- Bishop’s Stortford Town Council is modifying the Neighbourhood Plan for Silverleys and Meads Wards, which was adopted in 2015. Simultaneously the Town Council is also modifying Bishop’s Stortford Neighbourhood Plan for All Saints, Central, South and parts of Thorley Parish. This Neighbourhood Plan screening report will be subject to a separate Non-Key Decision Report.
- The purpose of this report is to determine whether or not a Strategic Environmental Assessment (SEA) and/or a Habitats Regulations Assessment (HRA) of the emerging Neighbourhood Plan Revision for Silverleys and Meads Wards is required.
- The report concludes that the Neighbourhood Plan Revision does not require either a Strategic Environmental Assessment (SEA) or a Habitats Regulations Assessment (HRA) because the Plan is not likely to have any significant environmental effects.

RECOMMENDATIONS FOR DECISION: That Bishop's Stortford Town Council be advised that:

- (A) In accordance with Regulation 9 of the Environmental Assessment of Plans and Programmes Regulations 2004, the District Council, as the responsible authority, has determined that an environmental assessment of the emerging Bishop's Stortford Neighbourhood Plan Revision for Silverleys and Meads is not required as it is unlikely to have significant environmental effects. In making this determination, the District Council has had regard to Schedule 1 of the Regulations and has carried out consultation with the consultation bodies; and**

- (B) The emerging Bishop's Stortford Neighbourhood Plan for Silverleys and Meads Wards Revision is unlikely to have a significant effect upon a Natura 2000 designation and therefore does not require an HRA.**

1.0 Proposal(s)

- 1.1 In order for a neighbourhood plan to meet the Basic Conditions to proceed to Referendum, the Local Planning Authority must determine whether a neighbourhood plan requires a Strategic Environmental Assessment (SEA), and/or a Habitats Regulations Assessment (HRA). This report determines whether the Bishop's Stortford Neighbourhood Plan Revision for Silverleys and Meads requires either.

2.0 Background

SEA Legislative Background

- 2.1 The European Directive 2001/42/EC requires a Strategic Environmental Assessment (SEA Directive) to be carried out for certain plans and programmes to assess their effects on the environment. This Directive was transposed in law by the

Environmental Assessment of Plans and Programmes Regulations 2004.

- 2.2 Neighbourhood Plans fall within the scope of this legislation. They are a plan as defined by Article 3(2) of the SEA regulations and Regulation 5 paragraph 2 of the Environmental Assessment of Plans and Programmes Regulations 2004.
- 2.3 Under Article 3(2) of the SEA Directive and Regulation 5 paragraph 6 of the Environmental Assessment of Plans and Programmes Regulations 2004, Strategic Environmental Assessment (SEA) is only required for documents that determine land use in small areas at the local level where it is considered that they are likely to have 'significant environmental effects'. This is carried out through a screening determination.
- 2.4 The role of a screening exercise is to determine whether the effect of the implementation of a plan or programme is likely to have a significant effect on the environment.

HRA Legislative Background

- 2.5 The Conservation of Habitats and Species Regulations 2010 (as amended in 2012) transpose the requirements of the European Habitats Directive 92/43/EEC into UK law. The Habitats Directive and Regulations afford protection to plants, animals and habitats that are rare and vulnerable in a European context.
- 2.6 Habitats Regulations Assessment (HRA) is a systematic process through which the performance of a plan or project can be assessed for its likely impact on the integrity of a European Site. European Sites, also referred to as Natura 2000 sites, consist of Special Protection Areas (SPA), Special Areas of Conservation (SAC); Potential Special Protection Areas and candidate Special Areas of Conservation (pSPA and cSAC); and

listed or proposed Ramsar sites.

- 2.7 Article 6(3) of the Habitats Directive states: 'Any plan or project not directly connected with or necessary to the management of the site but likely to have a significant effect thereon, either individually or in combination with other plans and projects, shall be subject to appropriate assessment of its implications for the site in view of the site's conservation objectives'.
- 2.8 The first stage of HRA is to screen a plan or programme to identify if there are likely to be any significant effects on Natura 2000 sites. This will indicate whether a full Appropriate Assessment is required.

3.0 Reason(s)

SEA:

- 3.1 To decide whether a draft neighbourhood plan might have significant environmental effects, its scope needs to be assessed against the criteria set out in Schedule 1 to the Environmental Assessment of Plans and Programmes Regulations 2004.
- 3.2 The local planning authority is required to put in place a process to provide a screening opinion to the qualifying body (in this case, Bishop's Stortford Town Council) on whether the proposed neighbourhood plan will require a Strategic Environmental Assessment (SEA). The qualifying body should work with the local planning authority to ensure that the authority has the information that it needs to provide a screening opinion.
- 3.3 When deciding on whether proposals are likely to have significant environmental effects, the local planning authority is required to consult Historic England, Natural England and the Environment Agency (the 'statutory consultees').

3.4 Bishop's Stortford Town Council (the qualifying body) has produced a draft modification to the Neighbourhood Plan covering Silverleys and Meads Wards. The draft Neighbourhood Plan revision contains policies on:

- Climate change
- Housing mix and affordable housing
- Design
- Contributions to Community Infrastructure
- Green Infrastructure
- Transport
- Education and Health
- Sport, Leisure and Community
- Business and Employment
- Town Centre

3.5 Bishop's Stortford Town Council has prepared a Strategic Environmental Assessment Screening Report. The Strategic Environmental Assessment concludes that the Silverleys and Meads Neighbourhood Plan Revision is not likely to have significant environmental effects. A copy of the Strategic Environmental Assessment Screening Report is included, for information, at **Appendix A**.

3.6 The Environment Agency, Natural England and Historic England have all been consulted on the draft Neighbourhood Plan Revision. All three consultees have confirmed that a SEA is not required for the Neighbourhood Plan as there are unlikely to be significant environmental effects. The responses from the consultees are attached at **Appendix B**.

3.7 Having regard to Schedule 1 of the Regulations and following consultation with the consultation bodies it is concluded that an environmental assessment of the emerging Neighbourhood Plan Revision is not required as it is unlikely to have significant environmental effects.

HRA:

- 3.8 The Local Authority is the 'competent authority' under the Conservation of Habitats and Species Regulations 2010, and needs to ensure that Neighbourhood Plans have been assessed through the Habitat Regulations process. This looks at the potential for significant impacts on nature conservation sites that are of European importance, also referred to as Natura 2000.
- 3.9 There are three key Natura 2000 sites that lie partly within East Hertfordshire – Lee Valley SPA; Lee Valley Ramsar site; and Wormley-Hoddesdonpark Woods SAC (although there are also sites in neighbouring authorities, namely Epping Forest SAC). Because Neighbourhood Plans must conform with the development plan for the area (in this case, the East Herts District Plan), which has been subject to an HRA, the key issue will be whether the Neighbourhood Plan will potentially result in an impact not previously considered.
- 3.10 The HRA on the District Plan concludes that the District Plan will not result in a likely significant effect, either alone or in combination, upon any European sites. In particular Policy NE1 of the District Plan provides for the protection of internationally designated sites.
- 3.11 The Neighbourhood Plan does not allocate any additional sites or growth not accounted for in the District Plan. Therefore the Bishop's Stortford Neighbourhood Plan for Silverleys and Meads is not thought to generate any additional impact not previously considered.
- 3.12 Given the conclusions of the HRA on the District Plan and the fact that the Neighbourhood Plan does not allocate any further development sites and is generally in accordance with the policy approach set out in the District Plan (which has been

subject to HRA) it is concluded that an HRA on the Neighbourhood Plan is not required.

4.0 Options

4.1 In order for a Neighbourhood Plan to meet the Basic Conditions it must be compatible with relevant legal obligations. Therefore the Local Planning Authority must determine whether the Plan requires a Strategic Environmental Assessment or Habitats Regulations Assessment.

5.0 Risks

5.1 A Neighbourhood Plan cannot proceed through examination without fulfilling the legal requirements of the SEA and HRA process.

6.0 Implications/Consultations

6.1 The Neighbourhood Plan process requires statutory public consultation.

Community Safety

No

Data Protection

No

Equalities

No

Environmental Sustainability

The recommendations in this report ensure that the Neighbourhood Plan has considered environmental sustainability.
