

## Appendix 1: Initial Schedule of East Herts Council Car Parks in the EV Charger Concession Contract

The following car parks have been identified as having no or insufficient/out-of-date/non-operational ev chargers, with installation being assessment at this stage as being technically and operationally viable.

It is recognised at the outset that site assessments by OtaskiES may lead so some car parks no longer being viable locations and/or not being able to support as many chargers as initially envisaged. If this arises, the council will work with OtaskiES to find viable alternatives without reducing the overall number of chargers installed. The determination of locations, including any replacement locations, is reserved for the council.

<b>Town / village</b>	<b>Car parks</b>
Bishop's Stortford	Apton Road Crown Terrace Grange Paddocks – car park A Grange Paddocks – car park B Jackson Square
